

SHORT CV

Dr. Phaedon Christofi was born in Cyprus the year 1977

He passed the national entry exams for universities and succeeded in taking a grant to study Medicine in Greece.

He studied in the medical school at Aristotelian University at Thessaloniki and he graduated from it in 2002 (M.D)

Having graduated from the Medical School he worked as a rotating house officer in Medicine, Surgery, Psychiatry and Accident and Emergency Department of the General Military Hospital of Athens, the Medical and the Surgical Department of Paphos General Hospital and as a general practitioner at the Cyprus National Guard.

He started his residency in Plastic Surgery on December 2006 and completed it in March 2013.

His training included special training in minor surgery, lasers, non-surgical aesthetic procedures, burns treatment, trauma, reconstructive surgery, congenital malformations repair, breast surgery (oncologic and aesthetic), skin oncologic surgery, post bariatric surgery and aesthetic surgery. During his training in Plastic Surgery he was also working as private assistant of 3 of his the university professors in their private practice doing exclusively aesthetic surgery.

He passed the National test on October 2013 and he was awarded the title of specialized Plastic Surgeon from Greece (22/11/2013) and Cyprus (20/12/2013).

He is working as a plastic surgeon in private practice in Cyprus from November 2013 until today.

He was awarded the Stryker Fellowship on 2014, for Cleft Lip and Cleft Palate Surgery, and he was a volunteer in an OPERATION SMILE MISSION on 2015 at the Philippines.

He completed the International Master in Reconstructive Microsurgery from Barcelona University on 2016 (MSc)

He had additional training at TOOLO Hospital at Helsinki, Finland (breast, surgery, facial reanimation and sex reassignment surgery) on September 2015.

From June 2016 to January 2017 he had a reconstructive microsurgery fellowship at the famous ASAN Hospital in Seoul South Korea. There besides his training in reconstructive surgery he had the chance to participate in numerous aesthetic surgical and non-surgical procedures and laser treatments and to learn the principles of aesthetic surgery of the Asian face and body.

He had aesthetic surgery training at Brazil (Ribeirao Preto, Goiana, and Rio de Janeiro) from June to August 2017 focusing mainly in liposculpture and body aesthetic procedures.

He completed his training in Aesthetic surgery by attending multiple courses and conferences, targeting the new ideas in plastic surgery and by visiting well known doctors worldwide.

SURGICAL PROCEDURES DR.CHRISTOFI CAN PERFORM

1. Aesthetic Surgery

Breast

Implant Breast Augmentation

Fat Graft Breast Augmentation

Hybrid Breast Augmentation

Breast Reduction

Breast Lift/Mastopexy

Augmentation Mastopexy (lift and augmentation)

Male Gynaecomastia Repair

Face and Neck
